

700 Series Smart Battery Chargers

Vehicle electronics have become more sophisticated. The number of battery types have increased, but motorists knowledge has not. Ring's 700 series of Smart Battery Chargers handles this complex technology through a design that is easy to use. The ultra compact range includes models with multi-stage charging and units with dedicated charging profiles for modern START/STOP vehicles.

Clear indication

Green Flashing LED –
Charging mode

Green Solid LED –
Fully charged

Red Solid LED –
Battery Fault

• Compact design

For a more desirable looking product

• User friendly operation

Intuitive design that's simple to operate

• Connect and forget

Automatically stops charging when battery is full

• Maintenance charging

Ideal for long term battery connection

New brand packaging

700 Series Smart Battery Chargers

RSC701/RESC701 Smart Maintenance

- 3 stage charge cycle for keeping batteries in good condition
- Easy to operate – no buttons to press
- Auto selects 6V or 12V
- Ideal for long term connection
- Includes both battery clamps and connectors
- Weatherproof

RSC704/RESC704 Smart Battery Charger

- 3 stage charge cycle for keeping batteries in good condition
- Protects against over charging
- Fast & slow charge rate settings
- One button operation
- Ideal for long term connection
- Includes both battery clamps and connectors
- Weatherproof

RSC706/RESC706 Advance Smart Charger

- 8 stage charge cycle to optimise battery health
- Protects against over charging
- Battery repair to increase performance and life
- Fast & slow charge rate settings
- Std battery & START/STOP settings
- Lithium mode for electric vehicles
- Protects battery in cold temperatures
- Weatherproof

RSCBM Battery Monitor

- Compatible with all Ring 700 series Smart Chargers
- Traffic lights indicate the state of charge
- Ideal for long term battery connection
